Site Description

See site background page

Current Activities

At the request of IDEM, U.S. EPA confirmed the validity of the IDEM sampling with a U.S. EPA led confirmation sampling event on September 5, 2007.

On September 27, 2007, OSC Ken Theisen authorized the installation and maintenance for one year of carbon filtration water treatment systems for the affected residents:

- 9 Residents with detectable levels of TCE will receive Point of Entry (POE) water treatment systems
- 2 Residences located next to residences with detectable TCE will receive POE water treatment systems
- 2 Residences located 2 houses away from detectable TCE will receive Point of Use (POU) water treatment systems
- OSC Theisen in the process of obtaining signed access agreements from the residents
- There are five signed agreements in place as of September 28, 2007
- OSC Theisen is available by phone to any questions from the residents

Planned Removal Actions

- No removal actions are planned for the site

Next Steps

- ERRS will mobilize a plumber to begin installation of water treatment systems with the highest priority given to those residents with the highest levels of contamination

- Sample residential wells water at 6 month intervals to monitor the efficacy of the treatment systems and potential migration of the contaminant plume
- IDEM has agreed to perform operation and maintenance after the mandatory one year U.S. EPA completion date statutory deadline

Key Issues

Maintain cordial relations with IDEM, the city of Elkhart, and affected residents.

Estimated Costs *

	Budgeted	Total To Date	Remaining	% Remaining
Extramural Costs				
Intramural Costs				
Total Site Costs	\$0.00	\$0.00	\$0.00	0.00%

* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.
